ML Engineering Tutorial

Week 2: Datasets and Images in Tensorflow
Building a CNN for classification.

Ralf Mayet, Adaptive Systems Group @ Humboldt University Berlin
mayet@campus.tu-berlin.de
18th of November, 2020

Introductory (anonymous) Zoom Poll

Goals / Scope

- Focus: Practical programming! Interactive!

- Last week (18.11.)
  - Basics of Python, Numpy, Tensorflow
  - Applying it to linear regression

- This week (25.11.)
  - Re-visiting the regression example
  - Using Datasets and Images in Tensorflow
  - Building a simple MLP/CNN for classification
